Professional Summary

I am in search for a PPA for NYSC Service. I have basic tech skills, I have been using python for over 6yrs now primarily for Data Science and Machine Learning. I am passionate about solving problems and that's why I studied Mathematics.

I am looking for the perfect job to improve my tech skills.

Work Experience

Data science Intern

ExploreAI

January 2022 to May 2022

I completed real word projects, like predicting rainfall, sentiment classification on movie reviews using data science techniques with Python
